

# Mooring Integrity User Group Meeting Agenda

## Rotterdam, 16 June 2022

0900 – 0915: Safety Moment & Introductions

0915 – 0930: [10 Years of the Mooring Integrity User Group – looking back and forward.](#) A. Duggal, SOFEC

0930 – 1000: [Overview of Floating Wind Development in Taiwan.](#) KT Ma, Professor, National Taiwan University

1000 – 1015: [Scale Wind JIP – development of a widely accepted floating wind turbine design assessment methodology that leads to efficient design convergence and reduced operational uncertainties for large scale floating wind.](#) E. Ridder, MARIN

1015 – 1030: Coffee Break

1030 – 1100: [High Strength Mooring Chain – Status & Actions.](#) Dag-Børre Lillestøl, DNV

1100 – 1130: [Synthetic Rope Technologies: Addressing the Mooring Industry's Evolving Requirements.](#)

C. Dewijngaert & R. Faria, Bridon-Bekaert

1130 – 1215: [Open Discussion: Future Requirements for Mooring Systems?](#)

1215 – 1330: Lunch Break

1330 – 1400: [FOW Mooring – Key Challenges & Opportunities and a new JIP to address Reliability in Design.](#) T. Hordvik, DNV\*

1400 – 1430: [Mooring Chain Fatigue – New Knowledge with input to both O&G and Floating Wind Systems.](#) O. Gabrielsen, Equinor

1430 – 1500: [NorMoor JIP Phase 4 – On Chain Reassessment & Life Extension.](#) S. Okkenhaug, DNV

1500 – 1530: Coffee Break

1530 – 1600: [Mooring Line Failure Detection in the Absence of Load Monitoring.](#) M. Naciri, SBM Offshore

1600 – 1630: [Experiences with Full Scale Turret Mooring Measurements.](#) B. Bodaghi & R. Leeuwenburgh, Bluewater

1630 – 1715: [Open Discussion: The Future of Mooring Monitoring for Improved O&M Performance](#)

1715 – ????: Drinks on the Deck

*\*online presentation*
